PERSONAL PROFILE

I have graduated with a Bachelor's Degree in Computer Games Development (Honors) with a focus on object-oriented C++. I have four years of work experience in a variety of different jobs such as workshops, offices and retail. Strengths include adaptability, problem resolution, leadership, and teamwork.

EDUCATION

VIDEOGAME DEVELOPMENT – SETU CARLOW

SEPT 2022 – MAY 2026

Studied Agile Software Development, Object Orientated Programming, Computer Architecture for Game Devices and AI Development and Cloud systems.

COLUMBIA BUSINESS SCHOOL: 665 W 130TH ST, NEW YORK, NY 10027, UNITED STATES

2023 - 2026

Attended a 4 year executive Columbia Business School program, receiving lectures in business from many of Columbia's top professors in areas such as Leadership, Economics, Project Management, the future of AI, Business strategy and Marketing.

PROJECTS

Games Fleadh 2024 - Bronze Age Brawl – Best Gameplay Winner

Design : The team brainstormed the idea behind the game, designed opponents that were dynamically assigned to vectors using polymorphism.

Display : The Team showcased the game to passersby's and judges. I was tasked with getting people to move to our stand to engage with the game

Desktop Integrated platformer – Capstone Project

A platformer made using the Win32 API to detect windows use and caused automatic interactions such clicks moving and opening new Windows.

Drone Gesture Control – AI controlled

A drone using AI image recognition to detect hand gestures and objects and dynamically react in an interactive manner.

Multiplayer FPS with hack/security measures

A Unity based First person shooter. I was placed in charge of security against hostile attacks such as package injection and man in the middle attacks.

Personal server - website, E2E messaging and Selfhosted Games

A self-hosted Proxmox server used for hosting a website and hosting a completely online version of my capstone, used as a middleman for Cloudflare tunnels for a private end to end encryption service.

PROGRAMMING LANGUAGES AND PLATFORMS

Languages - C++, JavaScript, C#, Assembly, Python and HTML.

Platforms - NetSuite, Salesforce, WordPress, Cloudflare, RoboFlow.
